

Hansjörg Mauch

Vita

Hansjörg Mauch (b. 1945) holds a degree in sociology and social psychology. He has been with Metaplan from its founding in 1972. In recent years, he has been particularly active in multi-stakeholder projects, e.g., “The Future of Applied Mathematics in Germany” and “Master Plan for Industry” which is sponsored by the City of Hamburg. Additionally, he consults on the development of values and corporate mission statements for businesses and the public sector.

Personal interests

Hansjörg enjoys extended cycling tours. He loves piano music, particularly by the French Impressionists such as Debussy, and is fond of reading books by contemporary German authors.

Working languages

German, French
