

Shaping organizational structures

**Executive Program for
Organizational Leadership
March to September 2021**

Squeeze
your structures,
not your ideas.

Your organizational structures determine the success of your business – more than your ideas!

Embrace the essence: An executive program focused on organizational structures

Executives face a big challenge of having to provide answers to complex questions that impact both the current and the future business, such as:

- ___ How to choose the right strategic path from a multitude of options?
- ___ How to find the right operating system that secures future growth?
- ___ How to react to changes in the environment of clients, suppliers, competitors ...?
- ___ How to lead teams through transformation?
- ___ How to align powerful stakeholders to support your ideas?
- ___ How to overcome the cultural resistance within the organization?

...

We will enable you to find the right answers for your own organization, unit or team by illuminating your challenges from different perspectives which focus on the strongest lever your organization has: its structures.

*We call it **Organizational Leadership!***

Embrace the potential: A leadership program exclusively dedicated to master organizational challenges and create impact

Your skills after the program

Our program helps you to take on a fresh perspective on your own organization. It will enable you to better understand the power but also the deficits of your current structures. You will be able to analyse how your structures impact your culture and how to influence culture, so that it is supportive of your initiatives.

What's so special about this program?

It's not a best-practice infusion from the outside. Our approach values your experience as a senior manager and incorporates the know-how and competencies that are already there – in the expertise and minds of your team. All that can be discovered and unlocked by the right structural settings.

What's happening in this program?

You will professionalize your way of handling complex management challenges by designing structures and processes that create change, align stakeholders, and implement innovations. Our systematic approach helps you to deconstruct your current organizational structures and provides you with a building plan and the crucial elements to find resilient answers – to these and other questions.

Who is this for?

The program is aimed at executives who:

- ___ want to shape the strategies and structures of their organization, unit, or department
- ___ need to provide leadership guidance for their teams
- ___ aim to create maximum impact.

What will you learn?

Learning Journey 1

Shaping Structures & Cultures

Adapt a new organizational understanding

You will learn a systematic approach to design effective structures and to influence the cultural dynamics of your organization. This will prepare you to master both current and future business challenges.

Organizational performance is driven by organizational structures. Change structures, not people – and culture will follow!

Key topics

- ___ what are the implications of »organizations as social systems«?
- ___ what are the consequences of the division of labour?
- ___ why micropolitics are the key driving forces and challenges
- ___ how to pinpoint organizational challenges
- ___ how to identify the right structural and cultural levers
- ___ how to analyse and orchestrate the interplay of structures and cultures
- ___ how to set the structural levers right to create impact
- ___ how to devise a discourse strategy to win stakeholders and influence cultures

Creating space
for Innovation is easy –
connecting new ideas
with the old organization
is hard!

Learning Journey 2

Leading Transformation & Innovation

Adapt a progressive leadership approach:

You will learn an effective method for leading transformation processes and connecting new ideas with the old organization. Based on this approach you will be able to overcome resistance against change, while at the same time leveraging the power of organizational structures to accomplish a true culture of innovation.

Key topics

- ___ how to pinpoint the necessity, pains and goals of transformation
- ___ how to analyse relevant stakeholders and their interests
- ___ how to analyse and utilize power and trust constellations
- ___ how leading in critical moments can become the game changer
- ___ why successful innovation needs to be actively led through the mission-critical phases of variation, selection and restabilization
- ___ how to set leadership impulses in effective concert with the structural levers of the »Management Mixing Console«
- ___ how to create a discourse roadmap to secure transformation and innovation

Learning Journey 3

Developing Strategies & Markets

Adapt a new strategy blueprint:

You will learn a comprehensive way of exploring markets and leading strategies through a multi-stakeholder environment from development to implementation. You will be able to set up and steer an agile strategy process from development to implementation including market exploration, aligning stakeholders, creating customer value, and securing execution.

Common goals
in organizations are
the exception, not the rule.
A strategy which ignores
the interests of important
players is determined
to fail!

Key topics

- ___ how to explore the strategic intentions of stakeholders
- ___ how to detect new strategic patterns that already exist
- ___ how to orchestrate micropolitics and create alliances
- ___ how to set up an agile strategy process
- ___ what tools are helpful to consolidate and formulate the strategy
- ___ how to choose the right strategic initiatives
- ___ how to align stakeholders behind the strategy execution
- ___ how to set the right scope for a market exploration
- ___ what tools and formats enable to explore beyond the obvious
- ___ how to consolidate results and derive strategic consequences / actions

High impact learning

We combine scientific insights with applied methods. This is done in collaboration with field experts and delivered in highly interactive, digital, and collaborative formats.

A didactical structure focused on transfer into practice:

___ 10 % input from thought leaders of organizational science

___ 40 % applied methods and tools including peer reflection.

___ 50 % small group work on real cases and organizational challenges of participants

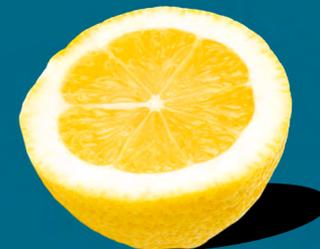

___ roadmaps after each journey for immediate implementation

___ One-on-One sparring with Metaplan experts to pinpoint the challenges and adapt the roadmap

... all empowered through virtual formats that fully engage and immerse participants in productive discussions!

»The Metaplan program was a crash course in organizational theory and practice. The teaching methods, the group discussions and the case work were on an extremely high level. One of the best seminars that I have attended in my whole career – compact and focused.« **Gunilla Ohls, Director Corporate Strategy, YLE Public Broadcasting, Helsinki, Finland**

How does it work?

The 3 remote learning journeys spread over 6 months.
The contents per journey equal 3-on-site seminar days (the equivalent of 9-on site seminar days for the entire program)

Structure of the learning journeys

Each journey initiates with a 1-on-1 sparring session with Metaplan, followed by a plenary kick-off session. It spreads over a core period of 4 weeks.

Each week features a fixed plenary session for content and Q&A. Plus a session in smaller groups, where the participants apply the content directly to their own organizational challenges. During the journey, the small groups will work on concrete roadmaps for immediate implementation how participants can take the lead and master their challenges.

Throughout the journey, participants will receive additional video material that they can study individually and discuss in small teams according to their own calendars and preferences.

The journey ends with a plenary closing session, followed by a 1-on-1 session after 8 weeks to follow up on learnings and roadmaps.

Each journey features a total of 12 LIVE ONLINE Sessions.

Overview

Pre-Course Activity

- access to online learning platform
- digital reader & videos
- 1-on-1 sparring with a Metaplan Consultant

Core-Sessions

- 1 kick-off & 1 closing session
- 4 content & 4 case work sessions

Follow-up activities

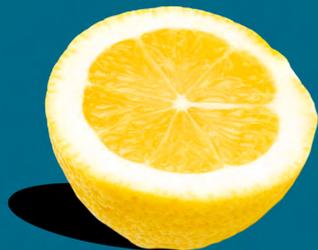

- 1 follow-up session on action plans after 2–3 months

»Overall it is a substantial opportunity to realize the number of different realities which can exist in parallel and which need to be taken into account to ensure a holistic solution – by involving stakeholders during the entire process to gain their buy-in and by changing from a linear to an iterative approach.«

Elizabeth Kan,
Director of Marketing Development,
Strategic Projects MOËT HENNESSY,
LMVH Group, Paris, France

Virtuous methods for virtual learning

We provide a highly interactive LIVE ONLINE learning experience with tested and tried virtual formats that fully engage and immerse participants in productive discussions and digital collaboration.

Selected features

- ___ flexible program structure to optimize and individualize learning time
- ___ indepth exchanges with expert faculty
- ___ deep dives with thought leaders from organizational science
- ___ effective tools of digital collaboration
- ___ accessibility from around the globe

Learning platform

We use our state-of-the-art learning platform to grant you access to all course materials, session recordings, and additional learning content within an intuitive, easy-to-use learning environment

Shaping organizational structures – Executive Program

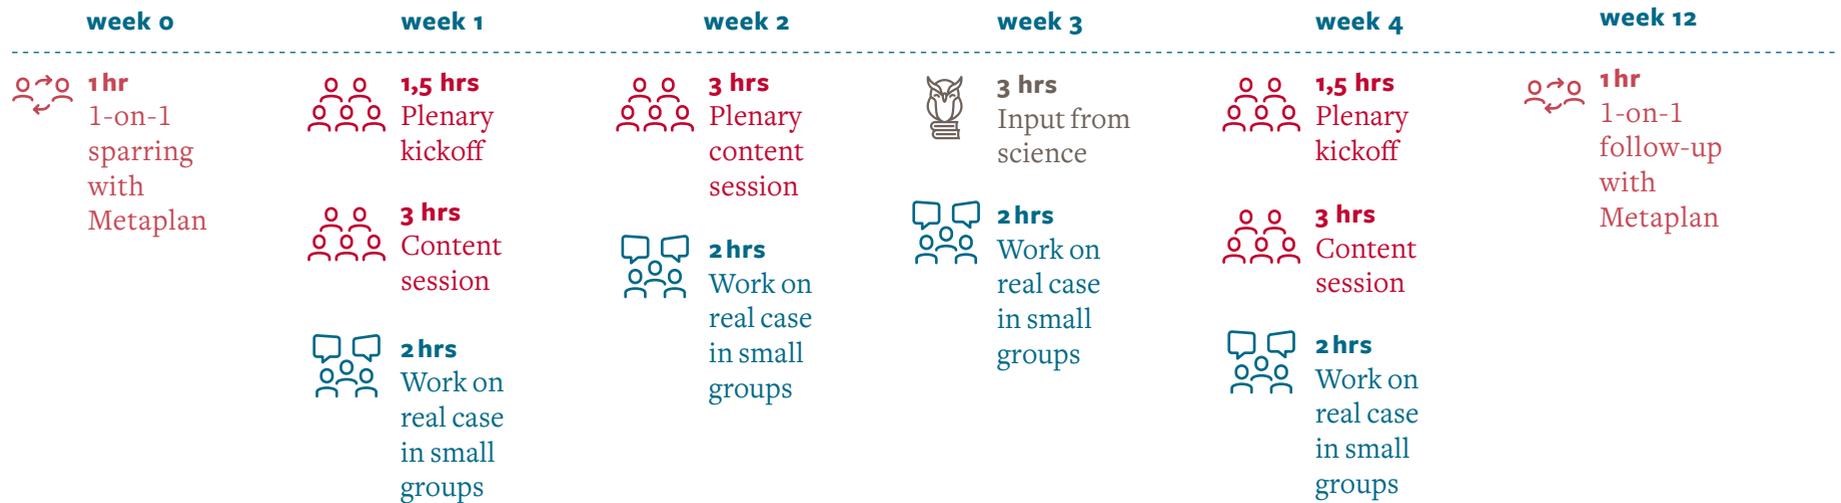

3 learning journeys over 6 months 36 live & online sessions 72 hrs of interactive learning & immediate transfer

Learning Journey 1 March 2021
Shaping Structures & Cultures

Learning Journey 2 June 2021
Leading Transformation & Innovation
Similar setup as Learning Journey 1

Learning Journey 3 September 2021
Developing Strategies & Markets
Similar setup as Learning Journey 1

→ Setup for each learning journey

Learning platform  Video on demand

What are the benefits?

For the participant

- ___ scientifically founded, yet practically applied understanding of organizations
 - ___ 50 years of proven experience in consulting and organizational science
 - ___ lasting skills to advance the organization and your career
 - ___ access to thought leaders in organizational science
 - ___ an enlightening trip with Metaplan to go beyond the buzzwords
 - ___ a tried and tested interaction method, invented by Metaplan
 - ___ innovative virtual tools for digital collaboration and self-study
 - ___ expanded international network of like-minded professionals
 - ___ lifelong Alumni membership and access to the learning platform
- ... without having to travel.

For the organization

- ___ competence and organizational development combined in one program
- ___ improved organizational readiness to adapt to new circumstances
- ___ a practical leadership approach that is relevant for all management levels
- ___ leaders dispose of new functional capabilities to create impact
- ___ leaders embrace their role in shaping the organization
- ___ a scientific base of applied social systems theory

»The methodology provides an effective way to develop strategy, with your team, that will be implemented. Engaging the team right from the start on »what could be« and »what should be«, helps to build meaningful contribution and alignment.«

Clement Woon, CEO, SAURER AG Wattwil, Switzerland

Individual sparring

If you want to discuss any ideas or questions on how this program can be of value to your development and your leadership initiatives, please contact our program director for an individual free 1-hour sparring that fits your calendar.

Preview-Sessions

Join our free LIVE ONLINE preview session for detailed information and extensive Q & A regarding the program.

Dates Mar 11th, 18th & Apr 01, 22nd 2021

Time One session per date:
08-10am CET / 03-05pm SGT

Program fee

The program fee is € 9.900 plus 19 % German VAT (for private citizens, German companies and companies subject to German VAT)

The three Learning Journeys are connected by the underlying organizational approach, but also work as independent formats.

Advantage:

You can start with any learning journey at any time.

This is an ongoing program, which allows you to plan and complete your participation even over two program cycles according to you needs and availability.

The image features a repeating pattern of orange slices against a solid blue background. Each slice is cut horizontally, showing the internal segments and the white pith. The slices are arranged in a staggered grid, with each slice casting a soft shadow to its right and slightly forward. The overall composition is clean and modern.
